KEY INSIGHTS

- North America generated the highest overall revenue contribution among all regions.
- CPU products achieved the highest profit contribution across all categories.
- Monthly revenue peaked during February, indicating strong early-quarter sales performance.
- G.SKILL Ripjaws V Series emerged as the top revenue-generating product.
- Video Card and CPU categories consistently outperformed other product categories in profits.
- South America contributed the lowest revenue, highlighting potential expansion opportunities.

BUSINESS RECOMMENDATIONS

- ✓ Increase inventory allocation for high-performing CPU products.
- ✓ Focus marketing efforts in North America due to strong revenue performance.
- ✓ Improve sales strategies in low-performing regions.
- ✓ Monitor seasonal demand spikes identified in February sales trends.
